

Comparability FRAGOLTHERM 660 – Therminol 66

10 July 2018

Dear Sir or Madam,

FRAGOLTHERM 660 is our direct equivalent for Therminol 66.

We confirm that FRAGOLTHERM 660 and Therminol 66 have the same chemical basis.

FRAGOLTHERM 660 and Therminol 66 are mixable and compatible, there are no chemical reactions between these two products. The material compatibility concerning sealings, etc. is comparable.

The physical and chemical properties of FRAGOLTHERM 660 and Therminol 66 show no significant differences. FRAGOLTHERM 660 can be used as top-up for heat transfer systems filled with Therminol 66.

Best regards

FRAGOL AG
